# bad santa's sing the f\*ck along

After 10 years in the biz, Santa's finally cracked!

At first it was the dream job, one month on, eleven months off. Plenty of free time to celebrate being December's biggest star. A hero, bringing joy and happiness to all. But each year, from the 26th of December, everything changes. Suddenly you are nothing, a no-one. A greying fat man in a red suit with a strong desire to drink sherry all day long.

A bitter downward spiral following a decade of sex, drugs and mince pies have finally knocked all the Christmas cheer outta this Bad Santa. Now he just doesn't give a flying fruit cake.

Although his sack may be filthy, his beard may stink of a thousand fags and we strongly suggest you don't sit on his knee, he still needs to make some dollar...

Luckily for him, this renegade can really sing!

Get ready for the filthiest night out in London. An unholy evening of inappropriate classic and tasteless games. Foul-mouthed, obscene, hilarious.

Santa is coming to town!
