the escapologist story

Based in the riotous Headquarters of the secret society that ran Victorian London, The Escapologist is styled as part 'modern day Victorian men's club' and 'part Masonic lodge'. Partying like it's 1899 seven days a week, the focus is on memorable times with great drinks in an outrageous space.

Legend has it that in 1898 party fiend and general vagabond Baron Von Took fled to London shrouded in scandal. With little to his name but his skills of cunning and a questionable reputation he battled for survival from one day to the next until his erratic behaviours landed him a date with the gallows. His final wish being a drink in one of Covent Garden's numerous brew houses, from which he promptly escaped. His following days were spent in hiding, rebuilding his power base.
